

Student Achievement: On-time Completion Rates Master of Science in Nursing Program

Expected Level of Achievement: For the Master of Science in Nursing program at least 45% of students are expected to complete the program on time from the start of the first nursing course.

Completion rates are determined following the Accreditation Commission for Education in Nursing (ACEN) calculation method, which is based on the number of students who graduate from the program within 100% of the stated program length (on-time completion), starting with the first nursing course. Reporting is based on the 100% graduation date (Date of first Nursing course + (length of program * 100%)).

Program Option	2025 On-time Completion Rate
Master of Science in Nursing Program	42.97%
